

Bryce Stanger | 21-22 High Street Bath BA15AJ | stangerarchitecture@gmail.com

profile

Motivated and enthusiastic first-year Canadian architecture student studying in the UK, with a solid understanding of design principles, technical skills, and creative problem-solving. Eager to secure an architecture internship to apply my academic learning in a real-world setting, gain practical experience, and contribute to innovative and sustainable design projects.

education

West Point Grey Academy — Vancouver, Canada
BC Certification of Graduation, Graduated: June, 2023
GPA: Honor Roll with Distinction (Highest Merit)

Relevant Coursework:
Visual Studio 11, Woodworking 11
Art Careers 12, Digital Media Development 12, Drafting 12
Physics 12, Calculus 12

Level 6 Volunteering (100+ hours)

Extracurriculars: Model United Nations, Jazz Band, Concert Band, Ski Team

university

University of Bath — Bath, United Kingdom
Bachelor of Science in Architecture, Expected Graduation: June, 2027

Relevant Coursework:
History and Theory of Architecture
Principles of Structural Engineering, Principles of Environmental Engineering
Design Studio
Digital Representation
Detail Design

skills

Software Proficiency:

AutoCAD, Revit, SketchUp Pro, Rhino, 3ds Max
Adobe Creative Suite (Photoshop, Illustrator, InDesign)
Microsoft Office Suite (Word, Excel, PowerPoint)
Rendering (Vray, Twinmotion, Lumion)

experience

**Work Experience at McKinley Studios — Vancouver, Canada
Summer 2022**

Gained insight into the dynamic and collaborative approach firms use to tackle projects, working efficiently to market their industry expertise and to compete for future projects. Explored 3D modeling software, such as Revit and Rhino, reviewed construction plans, and created physical models in their in-house studios. This work experience highlighted the practical value of organizational, communication and project management skills.

**Architectural Summer School University Of Toronto — Toronto, Canada
Summer 2022**

I complete a two week course, where I was introduced to site analysis, 3d modelling, physical modelling and collaborative problem solving where we had to create a park structure on the Toronto Islands.

**Sailing Instructor Mac Sailing — Vancouver, BC
2019-2024**

Taught adults and children sailing lessons both privately and in group situations. Worked in the office responding to customer emails, complaints and handling bookings. Allowed me to improve my customer communication, and team management skills.

**extra-
curricular**

Member of the BUCS university sailing first team

Competed internationally representing Canada at world competitions
Top youth Canadian, ILCA North American Championship, Second Place at the ILCA Canadian Youth Champs

**Volunteer - Habitat for Humanity
Vancouver, BC — 2022-Present**

Collaborated with a team to construct small-scale housing for underprivileged communities, gaining practical experience in construction techniques and sustainable building practices.

Architectural Society Member

University Of Bath — 2023-Present
Engaged in activities such as sketching, sculpture, and digital media that have enhanced my visual communication skills and inspired future architectural design projects.
